June 24 '1912

My dear Roy.

We just caught our train Friday and that was all. The train stands on the track five minutes or we wouldn't have got any tickets. We had to wait at the hospital for another car and that was five minutes after we got out. I suppose you saw C. Hullinger

yesterday, I didn't like  
to ask him to take  
your things. He said  
he was going to Manau.  
I haven't heard any  
thing from Wallace's.  
I think they have been  
taking in the Hastings  
Chautauqua this week.

I am wondering  
what you would think  
if I fixed up our  
front bed-room to rent  
to a couple of telephone  
men. You know  
there are to be a  
whole lot of extra  
men here rebuilding

all summer - I thought  
we could make a little  
extra that way. I am  
not sure yet whether I can  
get them or not but I  
think I can.

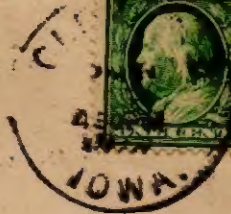

Billie said yesterday  
"I think my teeth are  
gettin' *loose*" I found  
out later He had  
been biting cherry  
stones and they hurt  
him. I must quit  
now the kids are  
howling about dinner  
all they think of

is eating it seems  
to me. June is  
about well again -  
Mrs. Hecker has a  
baby, about 3 days  
old. Mrs. Schwartz  
came to call,

Good bye boy, I  
will be so glad  
when you are  
able to come home

Bruce called this morning  
about you, said he was out  
all last week - and had  
to be engineer today - They are  
putting on a new man  
today - with love  
Carrie.
